

About GUJCOST

The Gujarat Council on Science and Technology (GUJCOST) was established in September, 1986, to play a catalytic role in promoting the use of Science and Technology in the development process of the State. The S&T Council was constituted with a view to develop technologies appropriate to and in harmony with present conditions. The Council has been catalysing interaction between developers and users of technologies, by bringing on a common platform to train Scientists and Engineers on the one hand and policy makers as well as administrators on the other.

Objectives of GUJCOST

- To encourage R & D activities in various sectors by monitoring the development and by feeding available information to assess and recommend financial support for such efforts.
- To devise policy guidelines for academic and field policies for the purpose of strengthening the planning and programming amenities for the development of science and technology.
- To advise the State Government on policies and measures relating to the development and deployment of Science and Technology manpower resources.
- To promote the popularization of science and the spread of a scientific temper and attitude among the people of the State.

About the Institute

Sankalchand Patel College of Engineering-Visnagar was established in 1999 by Nootan Sarva Vidhyalay Kelvani Mandal-Visnagar with an aim of producing world class professionals in the specialized fields of

Engineering. It is a constitute Institute of Sankalchand Patel University- Visnagar and approved by All India Council for Technical Education (AICTE)-New Delhi.

Department of Computer Application (MCA)

The Department of Computer Application (MCA) were established in the year 2008, approved by AICTE, New Delhi. Department runs with PG level course (MCA). The Faculty of Computer Science is also offering the Ph.D. program in the emerging domain. The department have well qualified and dedicated faculty members having experience more than 15 years. The department has state of the art infrastructure having AC multimedia classrooms and well computing equipment's in computer labs supported by high speed wired/ wireless Internet connectivity and servers.

Details of the Programme

The programme would be about the intense of learning the basics of python programming. The expert having their practical/Industrial exposure in this area will deliver their brain storming sessions.

Importance of the Programme

The core objective of this seminar is to bridge the gap between the academic knowledge and ongoing technological advancement for python programming. The expert sessions

during the program, both from academics and industries, will certainly help the aspirant researchers and professionals to focus and explore the concepts related to python programming. The researchers will have an opportunity to interact with experts from the industries especially from python and academicians from the reputed Institutes. The discussion will surely motivate the participants in the field of Python programming.

Who can participate?

- U.G. Students
- P.G. Students
- Faculty members
- Industry Professionals

Registration

Completed registration forms should be submitted before the last date of the registration.

Major thrust area

- ✓ To explore the skill set to be developed by the students of Engineering & Computer Science.
- ✓ **Expert Speakers**

Eminent speakers from various corporate and reputed Institutions will deliver their talk during the Workshop.

Important Dates:

Last Date for Registration: 16/08/2021

Confirmation of Participation: 17/08/2021
