Introduction

Examinations are the major determinant of the quality of a university. The credibility of exams conducted and the promptness in publishing the results are clear indicators of the efficiency of the Examination section of the University. The automation of the examination system was initiated since the inception of the University for transparency, accuracy, and mass data handling from the year 2016. The Examination Software is a complete and customized software solution for all examination-related activities like pre-examination, during the examination, and post-examination processes.

Certificate, Diploma, PG Diploma, UG, PG, and PhD programs are configured and examined according to the regulations approved by the concerned program council and the Academic Council of the University from time to time. The evaluation of all courses comprises two major parts, viz:

1. Internal semester assessment (IA)
2. End-semester assessment (EA)

The weightage of IA and EA differs for each program and will be reviewed by the Academic Council from time to time, if necessary. The examination section will conduct End Semester Examinations and issue grade sheets, provisional certificates, Degree certificates, etc., with requisite security features.

With the introduction of examination automation, the University ensures transparency, reduction of evaluation days, speedy processing, early redressed of examination-related grievances, and early publication of results. The digital portal of the University provides services to constituent institutes as well as students, including institute-wise separate login IDs and an e-Suvidha application for the students.

Activity Flow Diagram and Work Information of Examination System

For smooth conduction and monitoring of the Examination activities, it is classified into three parts as follows

Pre-Examination

During Examination

Post-Examination

Exam Section Initiate the Actives as per Academic Calendar

Status of automation in Examination process of University.

ERP system came in to existence since May 2016 and software services provided by MKCL, Pune & is used for following activities of examination system,

1. Configuration of teaching and evaluation scheme of each course as per subject code and name.
2. Generation of Examination form in institute login and also in student login.
3. Online submission of received examination forms through digital portal of University by the institute.
4. Generation of seat number & Hall Tickets with photo & signature of student and approved by CoE. Also it is digitally provided into institute login and e-Suvidha application.
5. Examination day and subject wise attendance report (Jr. Supervisor report) generation.
6. On line Entry of Absent and UFM cases on the day of examination.
7. Examination day and subject wise Main primary barcode generation for pasting on main answer book.
8. Examination seating arrangement.
9. Invite question papers through specially design digital portal.
10. Upload the subject wise final selected question paper in Secure Remote Paper Delivery system.
11. Suitable encryption system and secure system for the transmission of Question Papers to Examination centre at the allotted time. Password is generated through automated system and sent it to registered mobile number.
12. Barcode reader is used for Main barcode and examiner barcode mapping and marks data entry is completed accurately.
13. Capturing the internal, practical marks awarded by examiners at institute level directly to examination server.

Sankalchand Patel University

14. Automatic Grade allotment and SGPA & CGPA Calculations.
15. Result processing and generation of result report through dedicated software.
16. Examination results uploaded to university website and Declaration of results along with Provisional copy of mark sheets online.
17. The results are also available in the personalized online portal e-Suvidha login of students.

 - View and update the Profile
 - Download Examination form
 - View and download examination time-table
 - Download Examination Hall ticket
 - View result of End-semester exams
 - View result his/her history

ERP based Exam automation system gives us a lot of ways to organize data of the University and its constituent institute. Data is managed well and available with a single click of a mouse. Data or information stored in web servers. Storing information and data stored by ERP software in servers have backup systems and thus, our information is preserved.

In an Automated Integrated Examination System Student has to get registered online for the admission to a particular program offered by the University. After the admission process each student in the University is provided with a unique user id and password. Using this id, the student can login in to the student portal designed by the University. In the portal, student can view and manage their academic activities and ensure all student support from the University. Immediately after the admission each student is required to complete the course registration in the student portal.

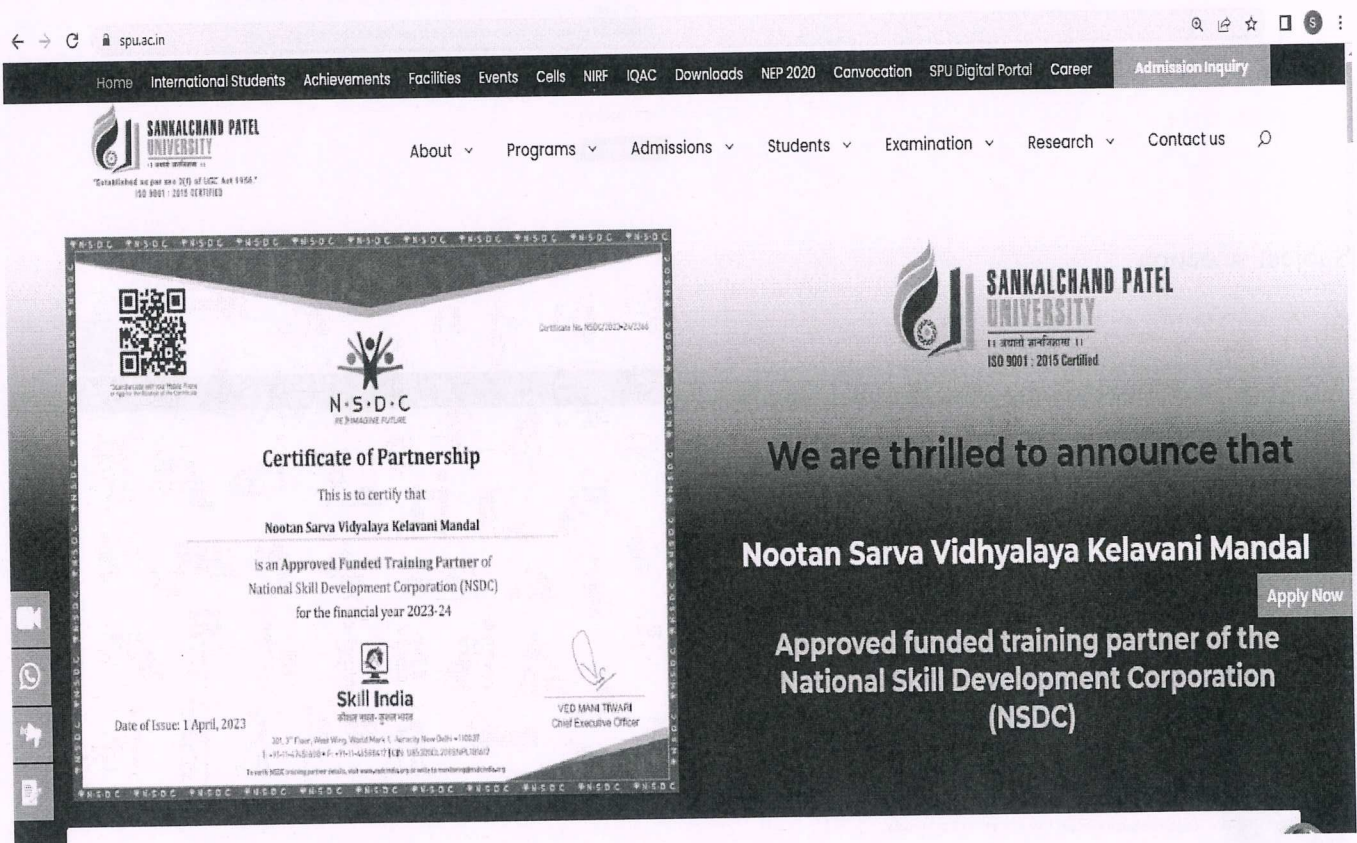

Students Registration and Subject allocation

Student registration is mandatory for all enrolled students. Students must register on the Student Portal through the STUDENT PORTAL link provided on the University website www.spu.ac.in. After registration, they are assigned subjects for which they have opted including all core, departmental electives, seminars, and open electives. Students are able to view every detail on Student Portal about the subject and attendance after registration.
